Portfolio: rukminik2skishore.github.io/Rukmini-Financial-Analyst/

PROFESSIONAL SUMMARY

FP&A professional with 2+ years of experience at UST in budgeting, forecasting, P&L analysis and management reporting across 10 cost centres. Skilled in translating financial data into clear insights for senior stakeholders, including developing a CIO dashboard to support spend visibility and cost-control decisions. Reduced recurring report preparation time by 30–50% through AI-assisted automation, creating more capacity for analysis and forecasting.

PROFESSIONAL EXPERIENCE

UST | FP&A / Business Finance

- **Reduced recurring financial report preparation time by 30–50%** through AI-assisted automation, streamlining repetitive tasks and accelerating delivery to stakeholders.
- **Delivered 10+ recurring financial reports monthly** within agreed timelines, providing timely performance insights to support stakeholder decisions.
- **Consolidated headcount and associated costs across 10 cost centres**, providing visibility into workforce expenditure for budget monitoring and financial planning.
- **Produced P&L reports and variance commentary**, explaining actual performance against budgets and forecasts to support management reviews and decision-making.
- **Consolidated cross-functional planning inputs** for budgets, forecasts and Annual Operating Plan (AOP) submissions, coordinating with cost centre teams to meet deadlines.
- **Supported revenue forecasting** by reviewing monthly revenue submissions, investigating variances and maintaining business pipeline tracking to improve revenue visibility.
- **Supported month-end financial close activities**, preparing and delivering monthly performance reports within required close timelines.
- **Reviewed and approved Service Orders and Purchase Requisitions**, ensuring compliance with internal controls and expenditure approval requirements.

KEY ACHIEVEMENTS

Reporting automation. Shortened a key report's preparation cycle from 2–3 days to 1–1.5 days, enabling earlier delivery and more time for analysis and forecasting.

Executive dashboard. Developed a CXO dashboard for the Chief Information Officer covering departmental spend, forecasts, budget variances, key drivers and potential cost-control opportunities.

Cost optimisation. Provided financial data and supporting cost figures to EY as required for the company's Metamorphosis initiative, supporting cost-optimisation analysis and planning.

Cost allocation accuracy. Identified USD 992K in expenses incorrectly charged to the department and facilitated their correction, ensuring accurate departmental cost allocation and budget monitoring.

CORE SKILLS

Financial Planning and Analysis

Budgeting and Forecasting | P&L Analysis | Revenue Forecasting | Financial Modelling | Variance Analysis | Annual Operating Plan (AOP) | Profitability and Margin Analysis | Consolidation

Reporting and Business Support

Flash Reporting | MIS and Management Reporting | KPI Reporting | Cost Centre Reporting | Headcount Cost Tracking | Budget Monitoring | Stakeholder Coordination
